

Northrop Grumman Technology Accelerator

The Northrop Grumman Technology Accelerator, run by FedTech is a fast-track channel to an engagement with Northrop Grumman Aeronautics Systems. The future could hold an opportunity for funded pilots, strategic collaboration, investment, joint venture, or vendor relationship.

We are Seeking Applications from Startups and Small Businesses in the Following Sectors:

Affordable Systems: Enabling Affordable Mass

- Low-cost aircraft subsystems and materials including: avionics, sensing, communications, airframe
- Low cost, high-rate manufacturing and maintenance technologies including: tools, materials, processes

Power and Thermal Management: Air Vehicles are Flying Faster, and Carrying More Electronics Onboard

- Power and thermal management supporting more electronics on vehicles
- Thermal management using materials science, heat exchangers, and novel methods

Other

- Breakthrough technologies relevant to Northrop Grumman Aeronautics Systems

Time Commitment and Eligibility

The program will run from July to September 2024 with a time commitment of up to 3 hours per week and at no cost to participants.

Each applicant shall be incorporated in, and maintain, a primary place of business in the U.S.
